

Governor Abbott,

I am continuing to write to you informing you very clearly that Donald Trump's campaign is continuing to spy on my daily life and drive vehicles past the front of my home as if they are teenage children disturbing the neighbors.

Truly, I am deeply saddened to discover that the Republican Party is nothing more than a large gang of spying criminals that is supporting a large gang of dirty law enforcement officers as they tear down our society in the name of, and under the color of, law.

You all should be so very ashamed of yourselves. You, as Republicans, and the Democrats are all nothing but low-life lousy criminals destroying our world while parading yourselves around primping and posing for cameras.

Shame on you all for begging for our hard earned money to continue on with this farce of 'political representation'.

You have done nothing at all to help me, respond to me, or even acknowledge my presence or the serious concerns that I am making known to your office. You are not representing me. You are lording over me and hiding my presence from the world.

Your party should have done something by now to stop your leader from continuing on with this charade. As I write this email, cars are driving past my home (bassing their favor for your Not-see-ism of my suffering).

Truly, fuck your entire political operation. I have contacted every political representative that I have as an honorable American should. I have contacted every law enforcement office that has jurisdiction over this matter, as an honorable citizen should. NOTHING. NO RESPONSE WHATSOEVER as a convicted felon spies endlessly on my home, threatening me, and constantly harassing my life with an endless parade of low-lives in loud exhaust cars, trucks, and motorcycles.

Fuck the Republican Party. Fuck the Democrat Party. And Fuck the Law Enforcement of Texas and the United States of America. You all deserve votes of 'No Confidence' - we would be better off without you all lording over us as if you are inspecting me as the criminal instead of your own gang.

FUCK YOU ALL!

Thank You for Contacting the Governor's Office
